To: Ken Staton & MVWD Board of Directors

From: Joseph Davis, General Manager

Date: November 25, 2014

Subject: Baldwin Springs Evaporation Basin

Background

The District budgeted $35,000 to replace the current arsenic infiltration containment ponds at the Baldwin Springs pumping facility. Staff has had concerns of the placement of these facilities during the construction of the arsenic treatment facility.

After conducting field research and discussions with NDEP it was decided to convert the current infiltration system with a poured in place concrete evaporation pond.

Staff solicited bids from local contractors to perform the work with the lowest competent bid being Repaircrete LLC at $32,680.

Suggested Motion

Move to approve the bid from Repaircrete LLC in the amount of $32,680.
This is for the Baldwin basins...

Bryan, here is the revised quote on the Baldwin Springs Evaporation Project:

November 5, 2014

Proposal for Evaporation Pond at Baldwin Springs. Bid includes all concrete material (4500 psi), all reinforcing bar, all forming material, all labor necessary to complete slab and walls on project as drawn by Bowen Collins and Associates. Bid includes placing and compacting 12" of type II below slab. Bid includes waterstop at construction joints. Moapa Valley Water to provide excavation of site to subgrade (12" below slab). Moapa Valley Water to provide access to site for concrete trucks and other work related vehicles. Moapa Valley Water to provide all type II material needed under slab. Moapa Valley Water to provide backfill of walls upon adequate curing of concrete.
All work to be performed to specifications as drawn.
Total: $32,680.00

Hey Bill,

It appears that we are planning to move forward with this soon. Were you able to get your business license secured? Would you like to update the quote?

Thanks!

Bryan

Bryan, here's the quote:

Proposal for Evaporation Pond at Baldwin Springs. Bid includes all concrete material (4500 psi), all reinforcing bar, all forming material, all labor necessary to complete slab and walls on project as drawn by Bowen Collins & Associates. Bid also includes 12 inches of type II placed and compacted below slab. Bid also includes waterstop at construction joints. Moapa Valley Water to provide excavation of site to sub grade (12" below slab/footings). Moapa Valley Water to provide access to site for trucks (including concrete and type II). All work to be performed to specifications as drawn.

Total price: $33,780.00

Thank you for the opportunity to bid this project.

Hey Bill,

As we discussed, the District would handle the preliminary grading and relocation of the pipe.

Thanks!

PROPOSAL

DATE: August 27, 2014

ATTN: Brian Mortensen
Moapa Valley Water District

DESCRIPTION:
Concrete Pond at Baldwin Springs - Option to do grading.
We have excluded any testing, survey or permits per our previous conversation. We have also excluded water and a water truck as we are using a rock base and because any water that may be needed would likely be available at the site. Per our conversation we also exclude all piping necessary to make the connection with the existing lines. We also are under the impression that MVWD will pothole the existing lines per our previous discussion.
