The transfer fee is paid only once. Example: The total transfer fee for a 50-home subdivision would be \$750 since there are more than 7 homes.

A person building 6 homes would pay a transfer fee of \$600 (\$100 per home)

A person building 1 home would pay a transfer fee of \$100

Commercial is calculated by taking the equivalent meter ratio x 100.00 for meter sizes 3/4x5/8", 1" and 1 1/2". For meters 2" and larger the fee is \$750

All meters 3" and larger require a by-pass meter unless the District determines that the meter has been appropriately sized. The cost of the by-pass water use will be included in the larger meter monthly statement.
